ACADEMIC DETAILS

Year	Degree/Exam	Institute	GPA/Marks(%)
Aug, 2022 - Present	B.TECH in Computer Science	Graphic Era University Dehradun	7.6/10.0
2022	12 th , C.B.S.E	Doon International School	86.00 %
2020	10 th , C.B.S.E	Doon International School	91.00 %

PROJECTS

- **VibeScript – Mini Programming Language with Smart IDE** *Apr 2025*
Designed a beginner-focused programming language with Gen-Z inspired syntax to improve engagement among first-time coders. Built a web based smart IDE using HTML CSS and Javascript with an intuitive Python back end for compilation. Achieved a 43% reduction in beginner implementation errors during peer testing involving 20+ students
- **Traffic OS Scheduler Simulation** *Mar 2025*
Designed a real-time traffic signal simulator using Round Robin, SJF, and Priority Scheduling algorithms, reducing average vehicle wait time by 40% across 100+ simulated traffic scenarios via an interactive HTML/CSS/JavaScript web application.
- **Face Recognition** *Feb 2025*
Engineered a real-time face recognition system utilizing Python, OpenCV, and the face recognition library, achieving a processing speed of 30 frames per second with 99 % accuracy in identifying faces.
- **AI Virtual Mouse** *Jan 2025*
Engineered a Python-based AI Virtual Mouse using OpenCV and MediaPipe, delivering 95% gesture recognition accuracy within a 5-meter range, demonstrating core expertise in real-time computer vision and human-computer interaction.
- **Traffic Sign Detection using YOLOv8** *Nov 2024*
Developed a YOLOv8-based deep learning model to detect and classify traffic signs with 92% mAP on validation data; processed 5,000+ labeled images and evaluated performance using Confusion Matrix and Matplotlib visualizations.

TECHNICAL SKILLS

- **Languages** Python (proficient), Java (proficient), C (proficient), C++ (proficient), HTML, SQL.
- **Machine Learning Tools** Tensorflow, Keras.
- **Computer Vision** Expertise in real-time applications and image processing techniques.
- **Web Development** HTML, CSS, JavaScript, PHP, MySQL, Basic ReactJS, Responsive Design.
- **Game Development** Pygame, Python

ACHIEVEMENTS

- **Android Mobile Application Development, Swayam** Completed a 12-week government-recognized course covering Android SDK, UI design, activity lifecycle, data storage, and app deployment.
- **Image Processing with Python, Swayam** Completed a 12-week course covering image manipulation, filtering, segmentation, object detection, and steganography using Python libraries like OpenCV and NumPy.
- **Competitive Programming Achievements-** Solved over 300+ coding problems across platforms including LeetCode, HackerRank, GeeksforGeeks, and Codeforces. Gained hands-on experience in algorithm design, data structures.
- **Hack-O-Holic 24-Hour Hackathon** Collaborated in a 24-hour software building sprint to develop innovative tech solutions under time constraints; enhanced skills in rapid prototyping, teamwork.
